Work Experience

Services

UX/UI Design

Designing intuitive, user-focused interfaces with clean visuals & smooth interactions.

Frontend Developer

Building responsive, pixel-perfect interfaces using HTML, CSS, JS, and React.

Design Research

Exploring user needs through research to shape meaningful design decisions.

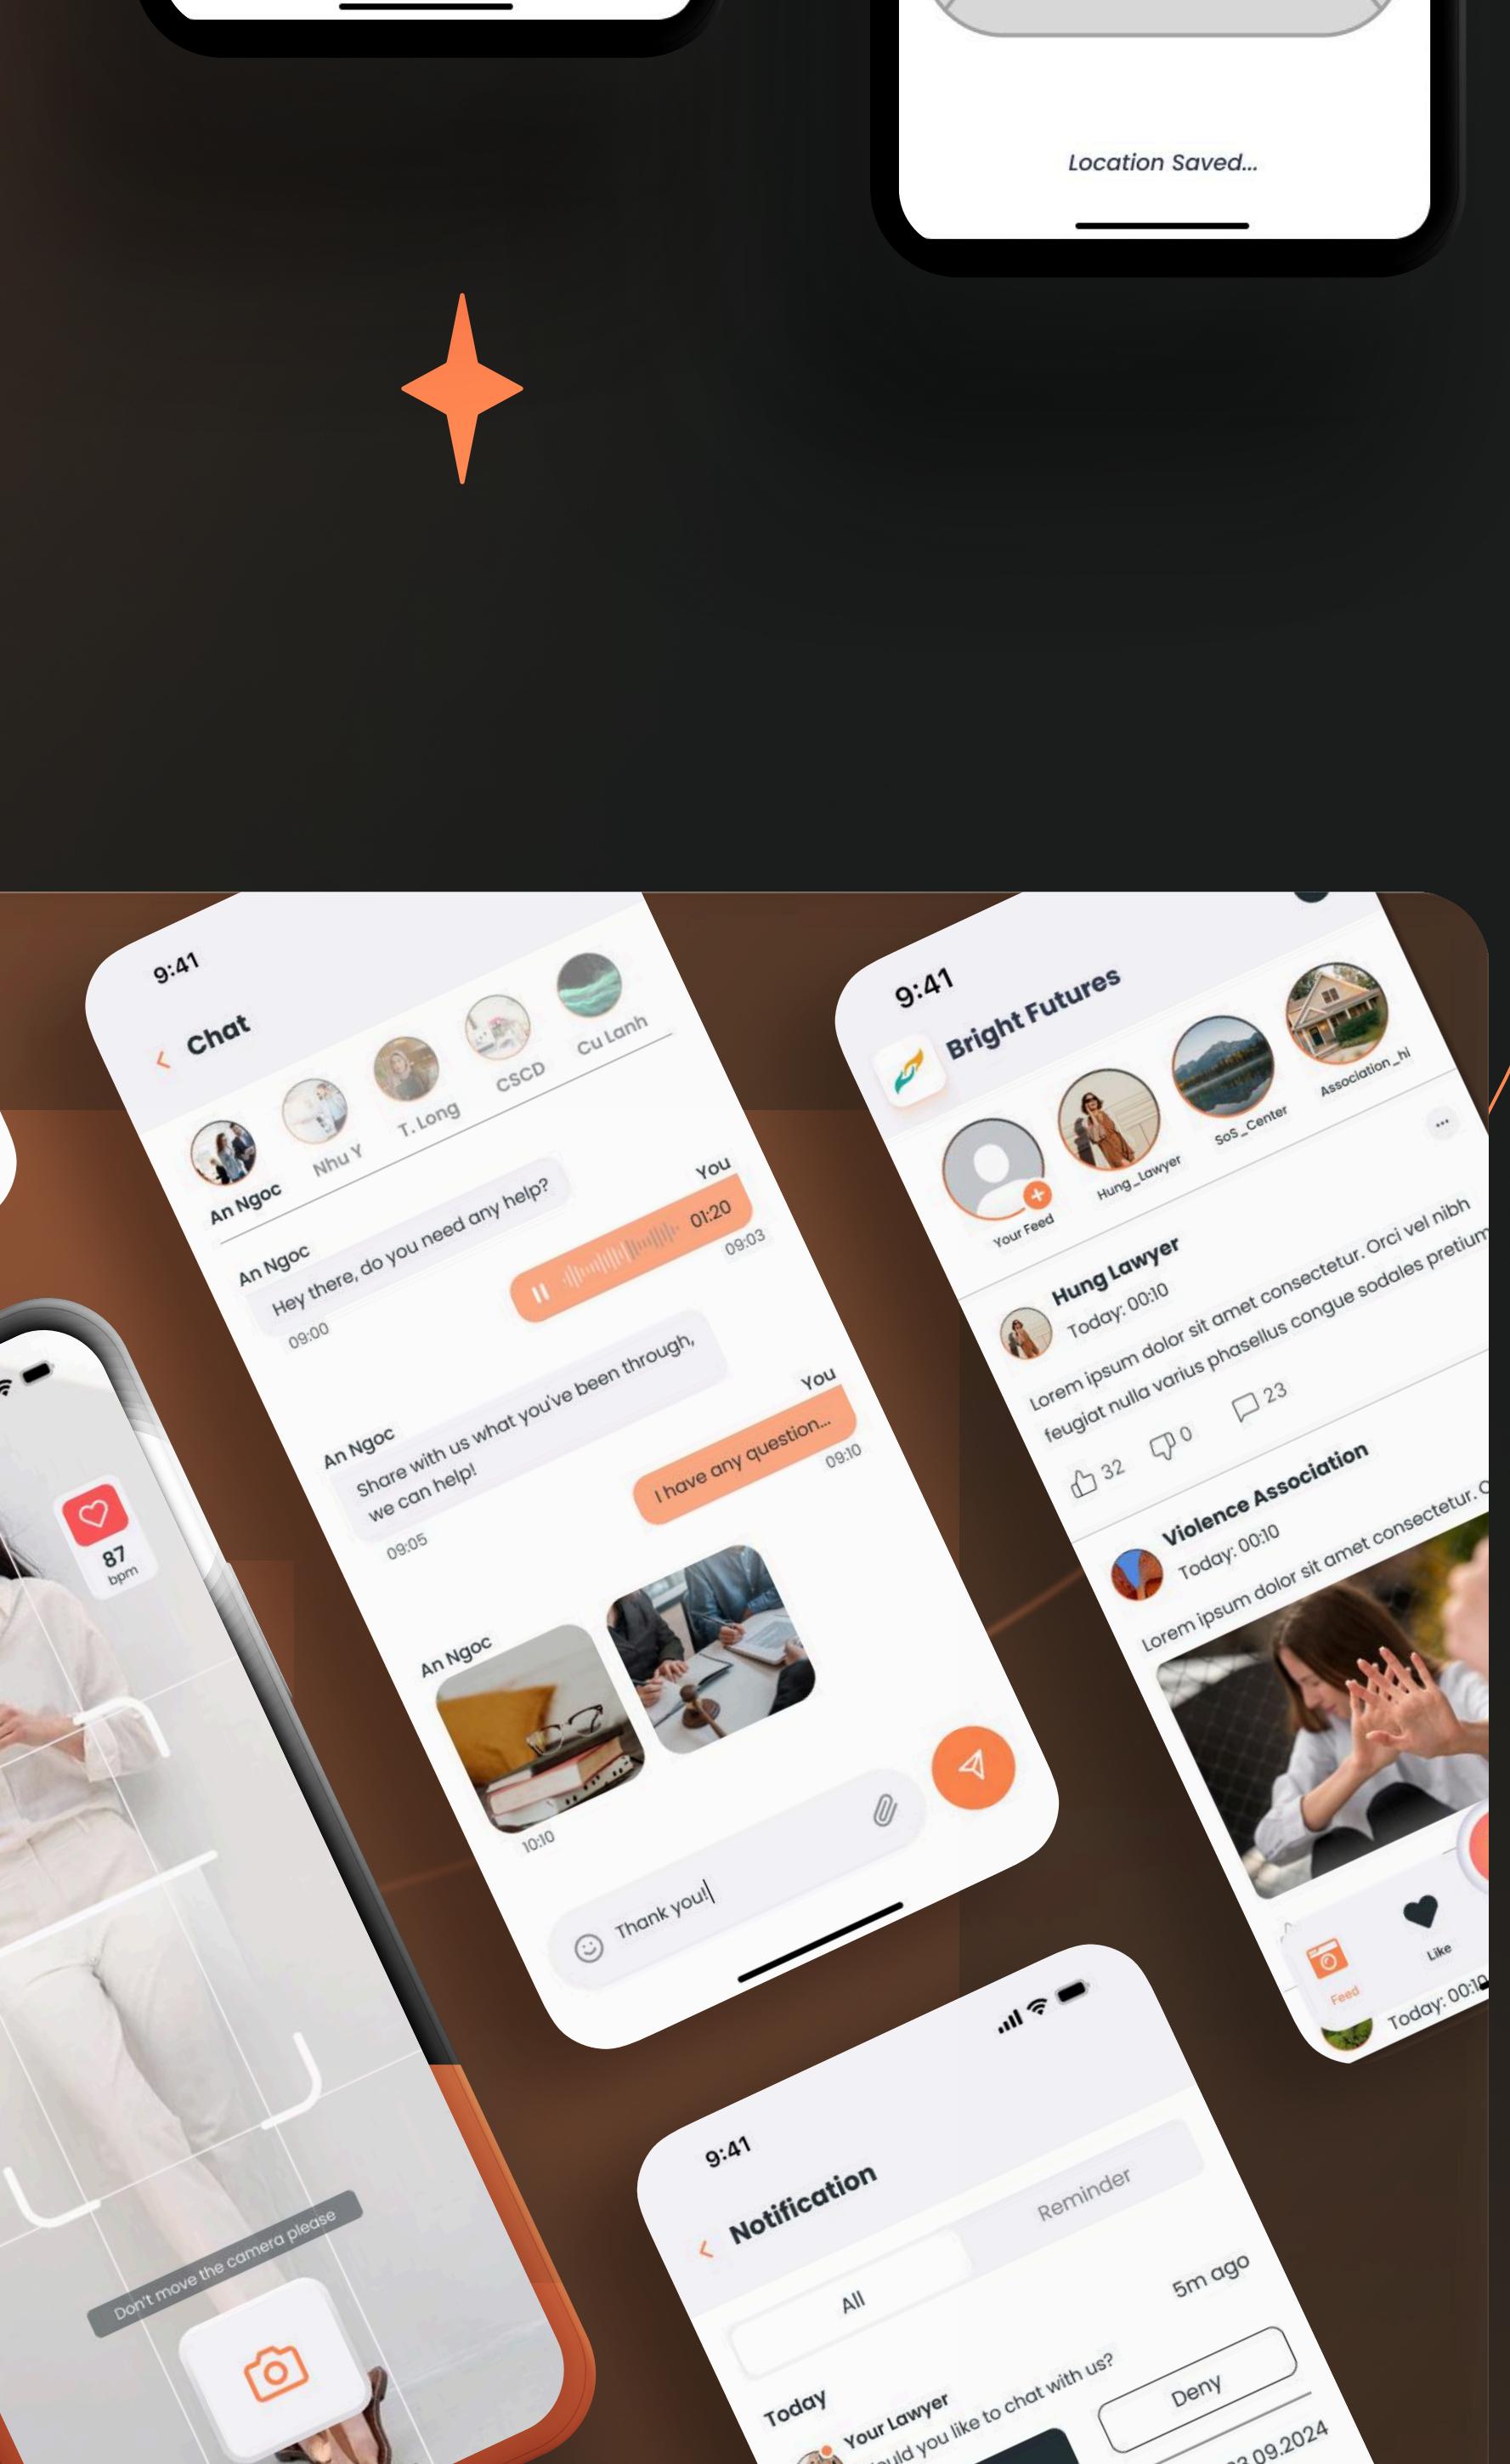

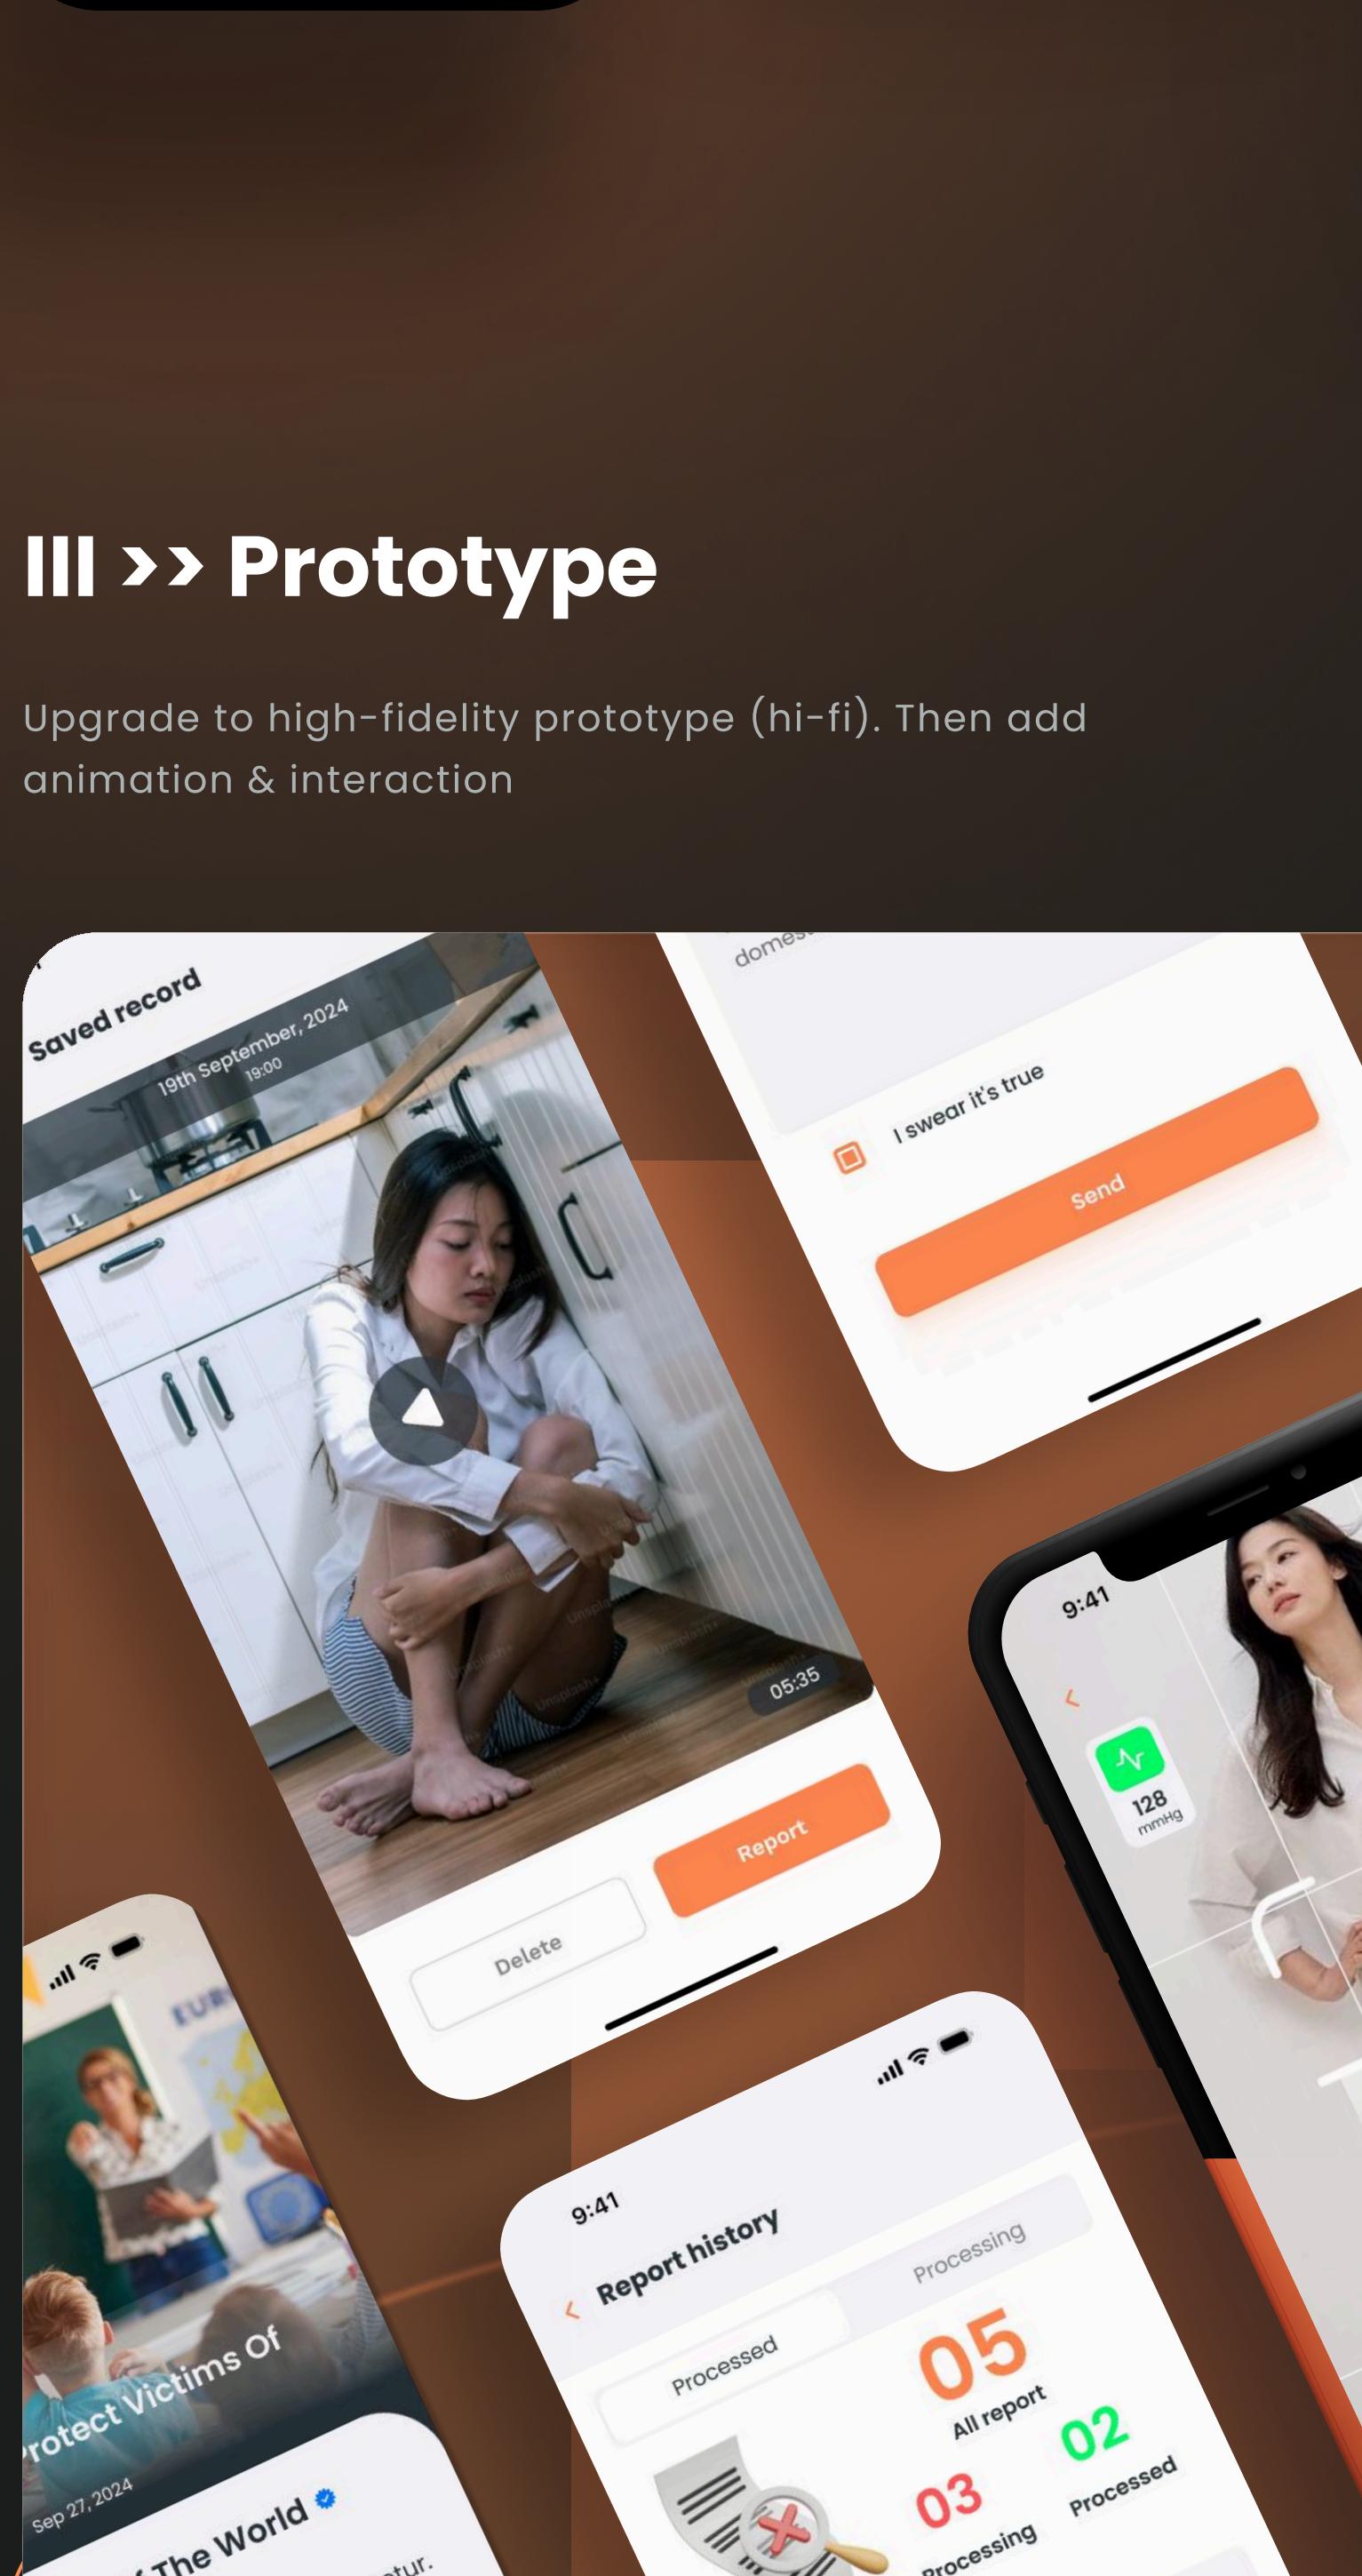

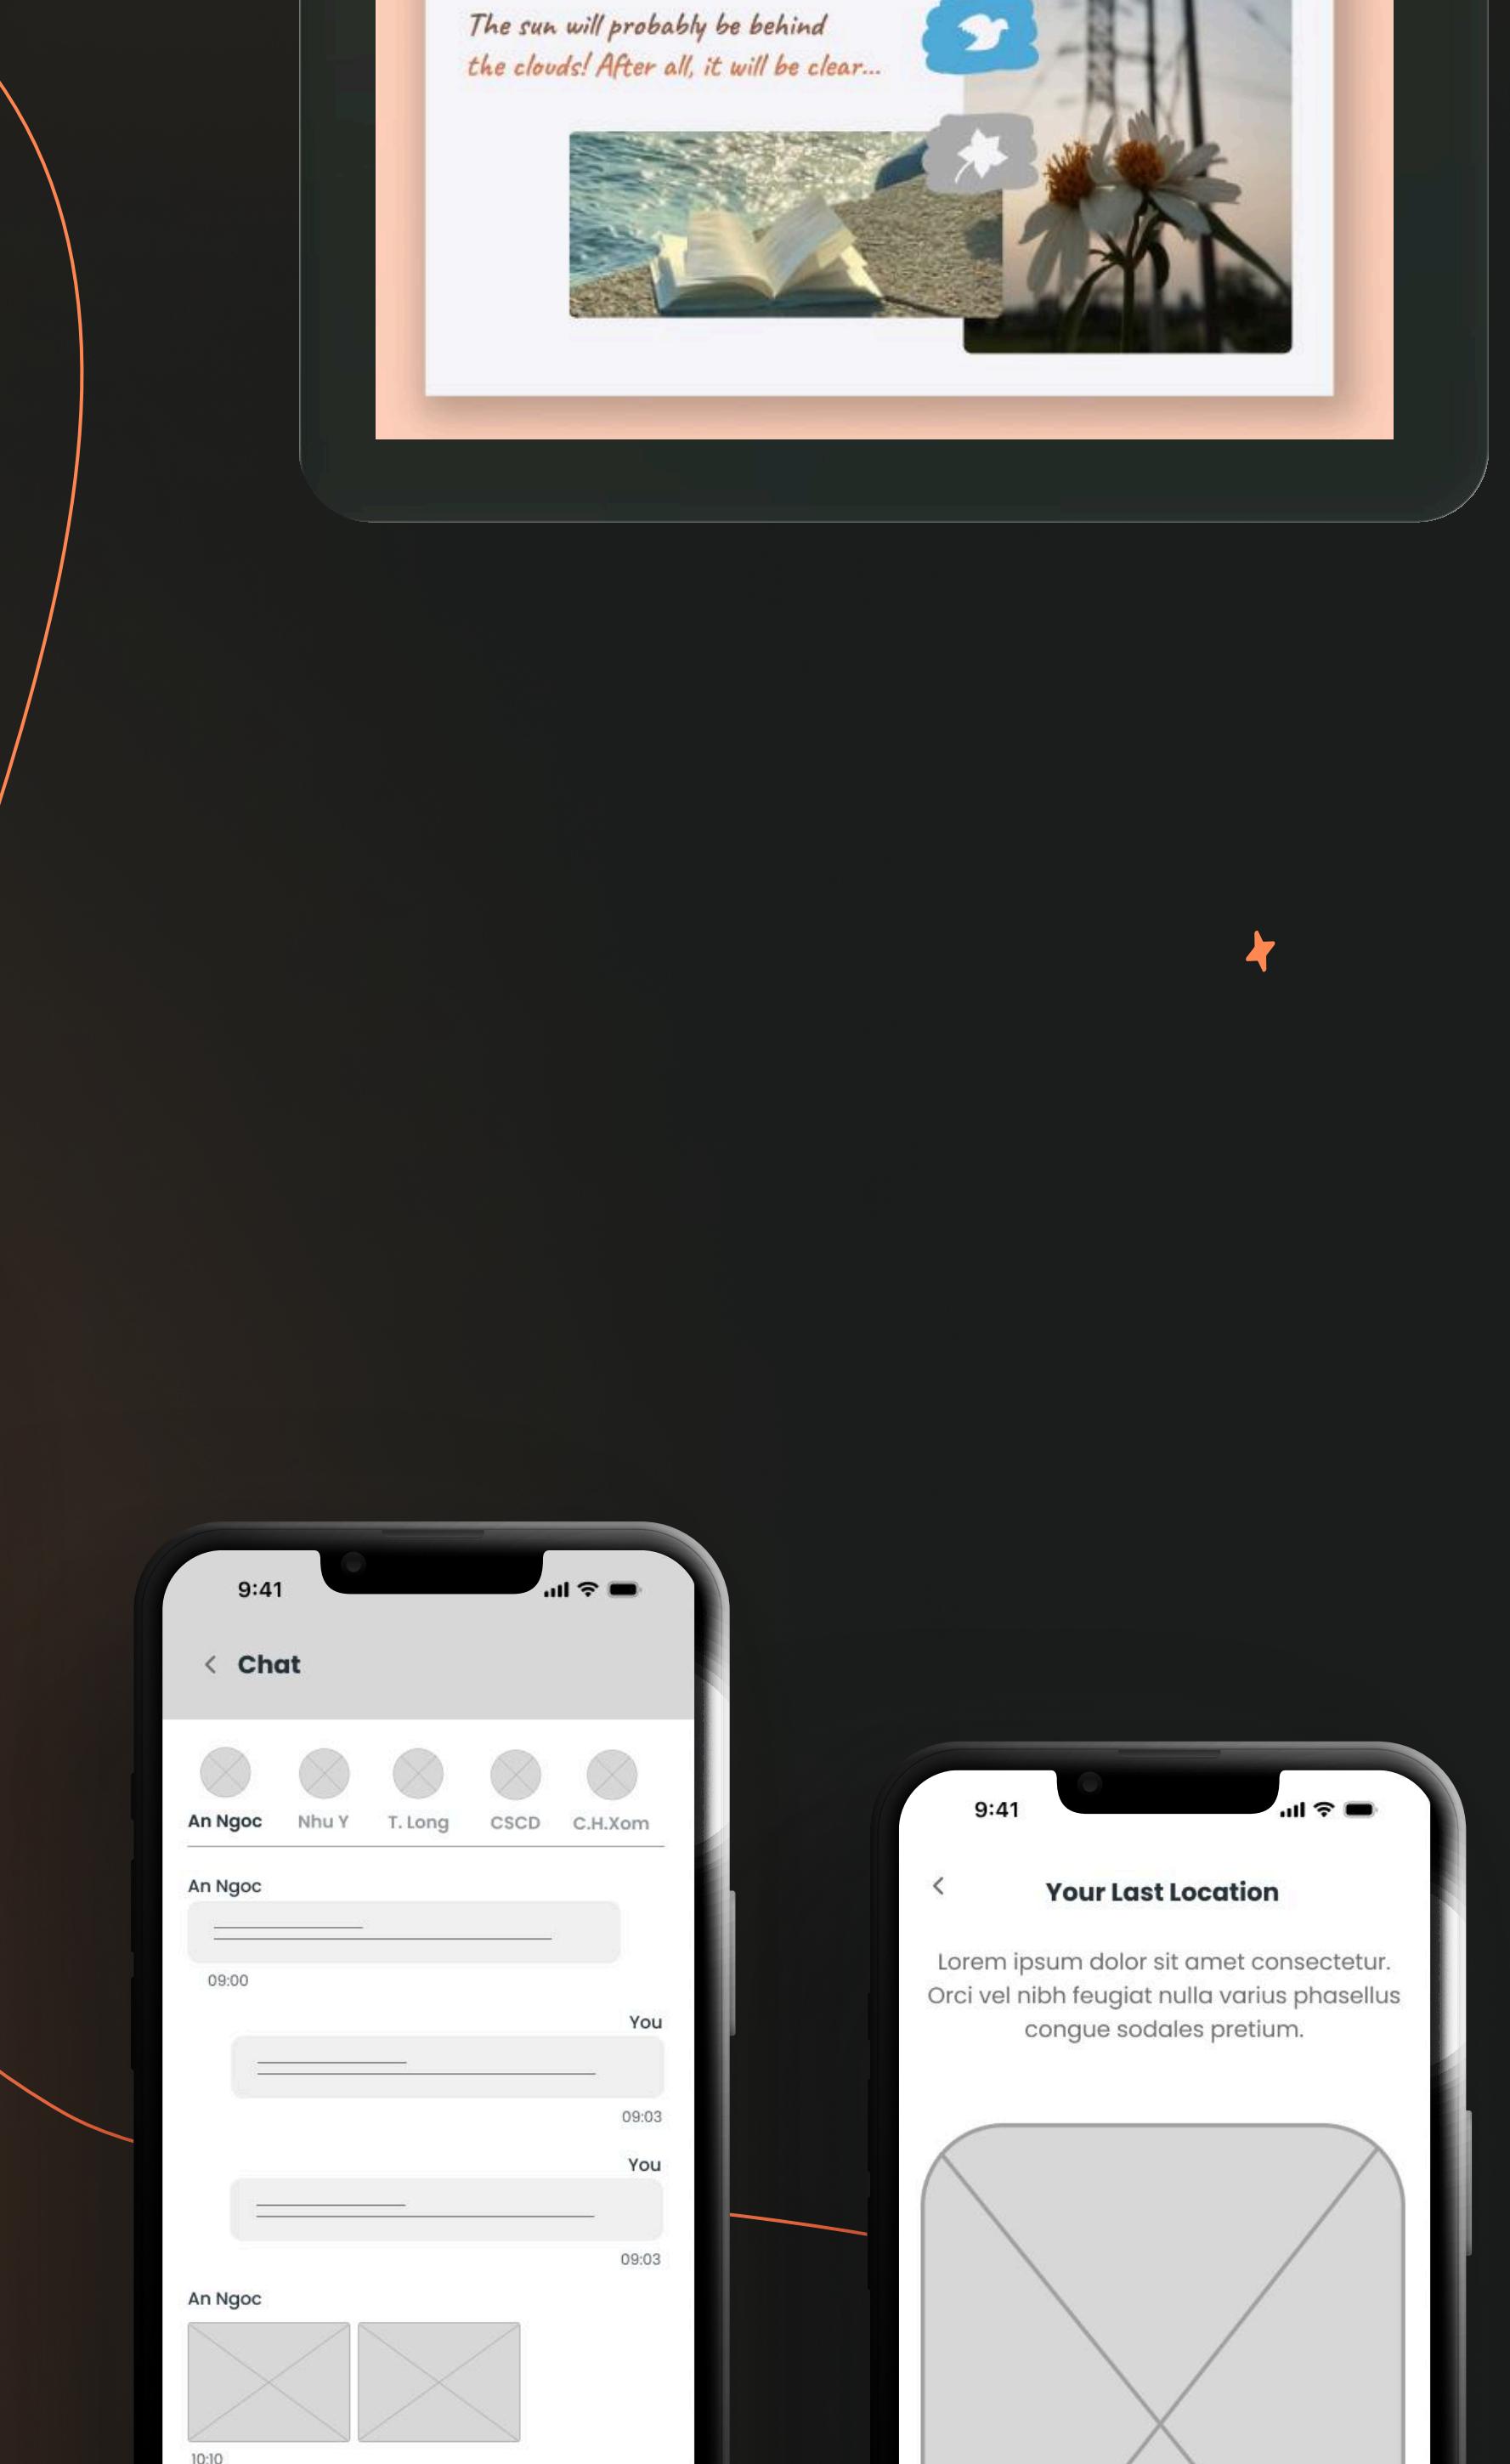

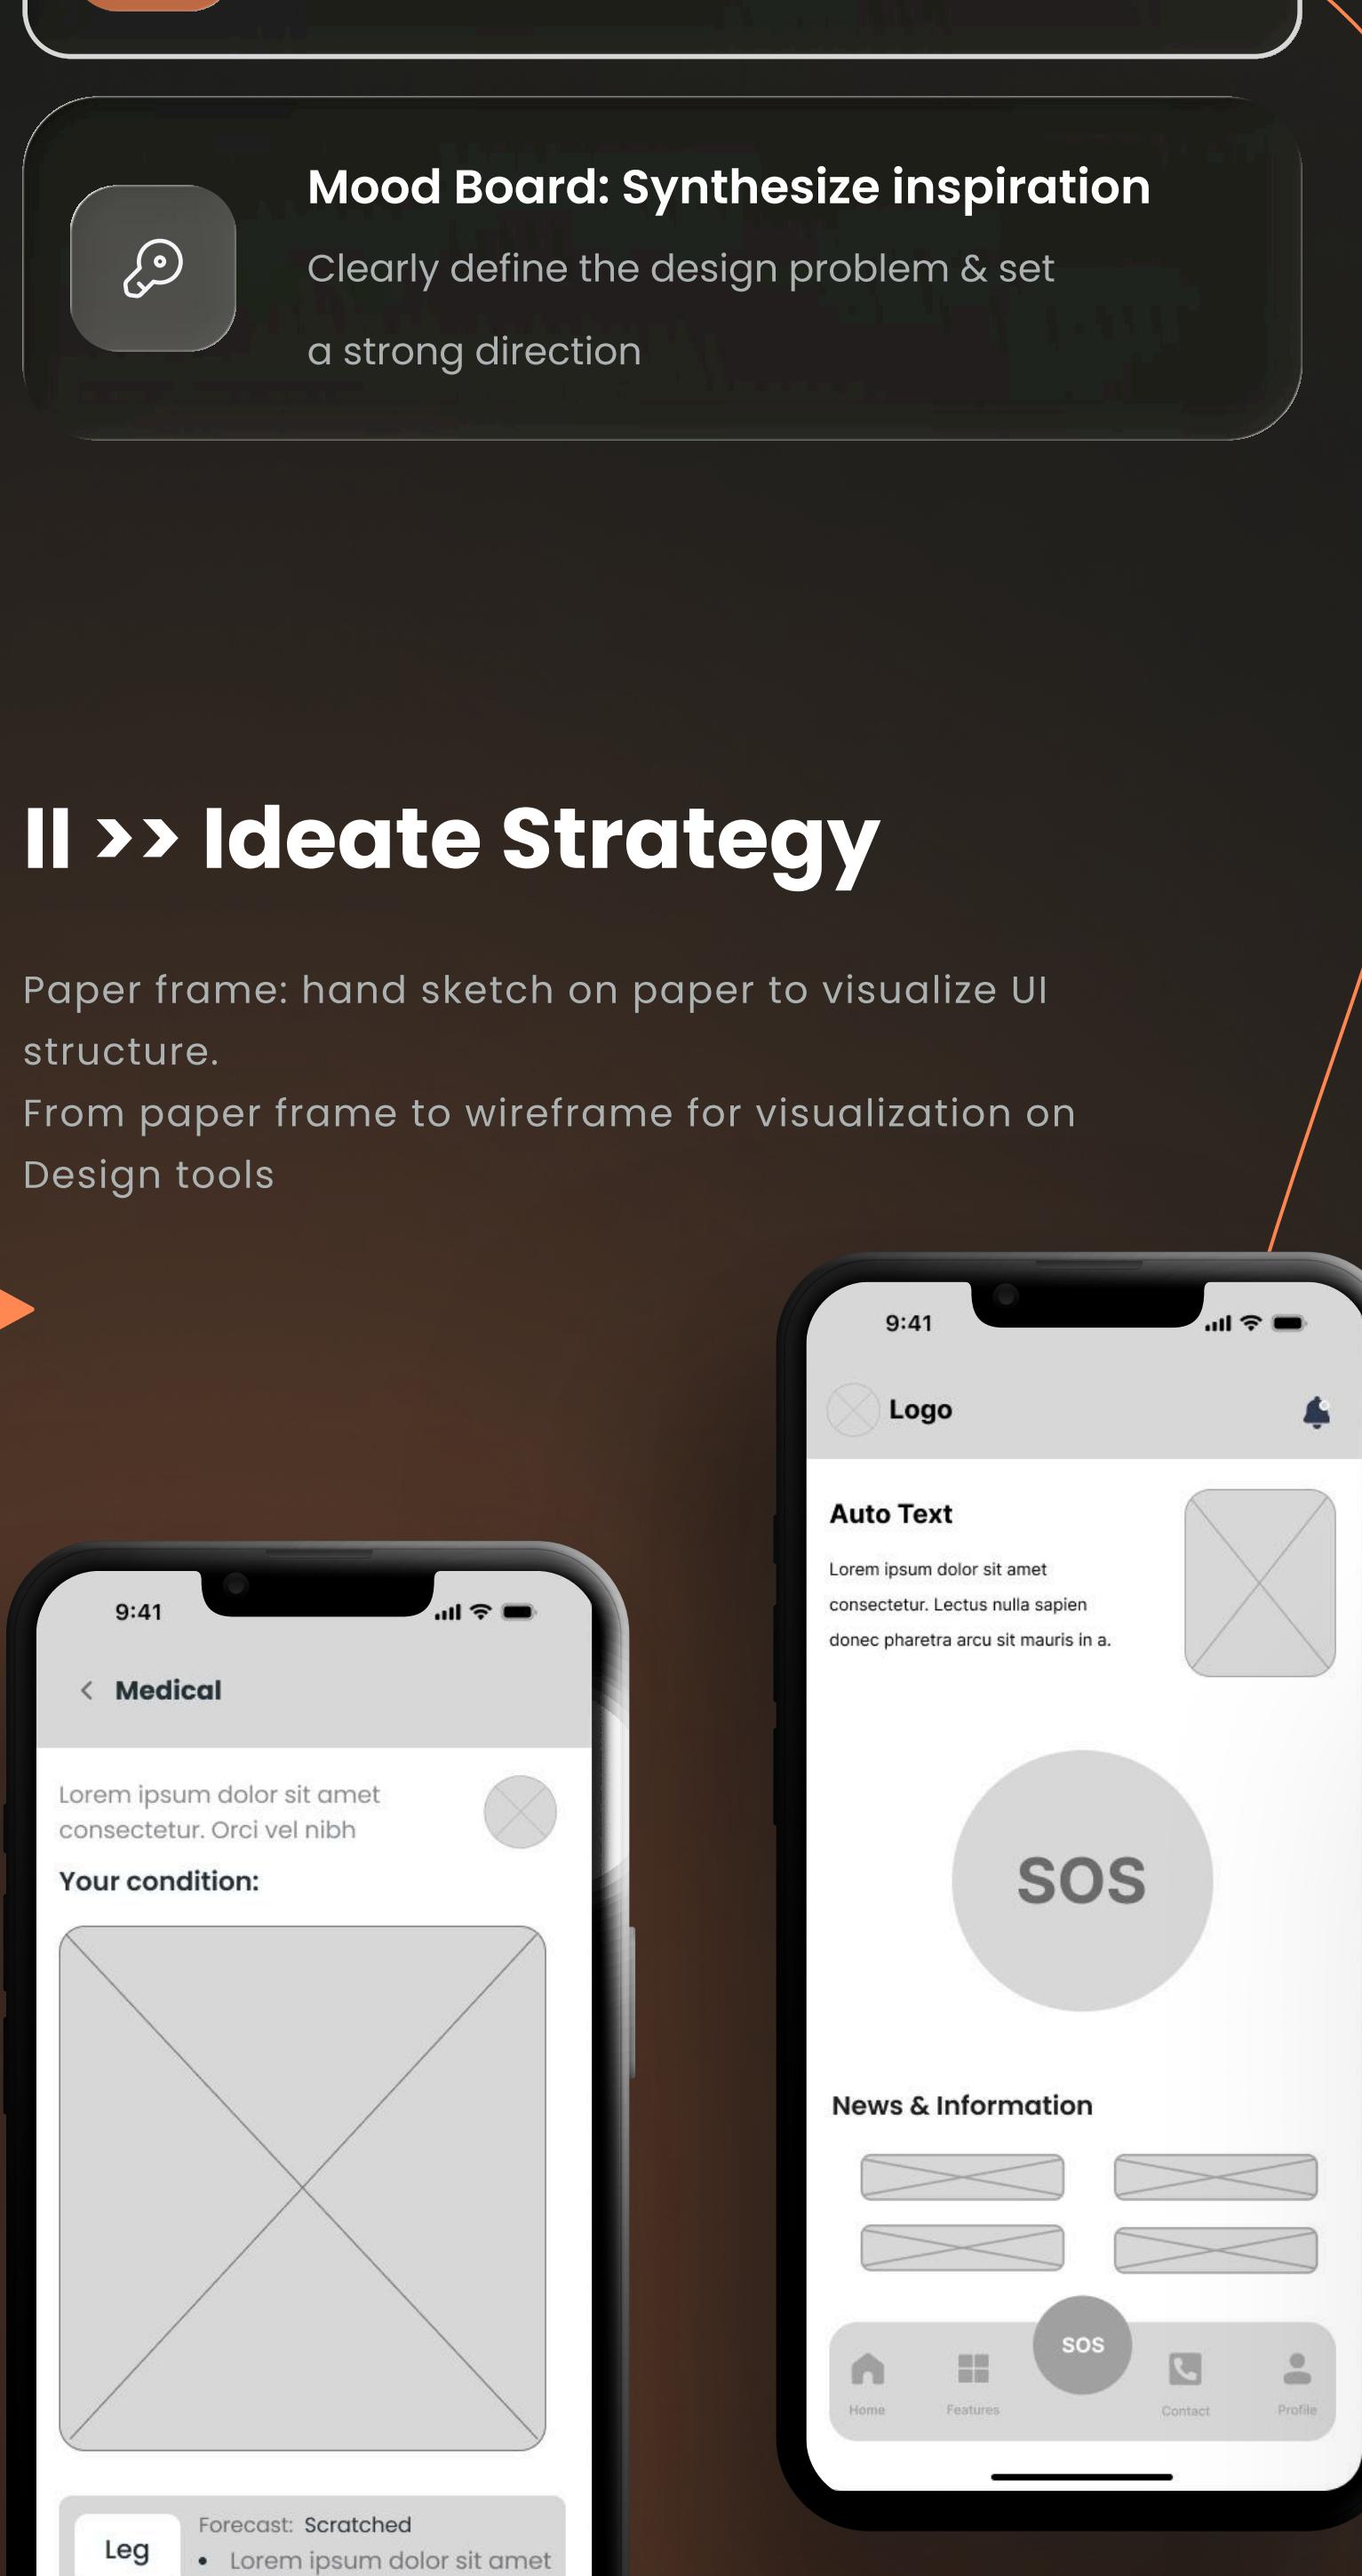

Digital Product Showcases

All

Website

Mobile App

Landing Page

Workflow

From sketching ideas on paper to building high-fidelity prototypes, each step helps me better understand users and create meaningful digital experiences.

I >> Empathize & Define

"I start by identifying user needs and behaviors through small surveys or conversations with stakeholders."

Researching user behavior

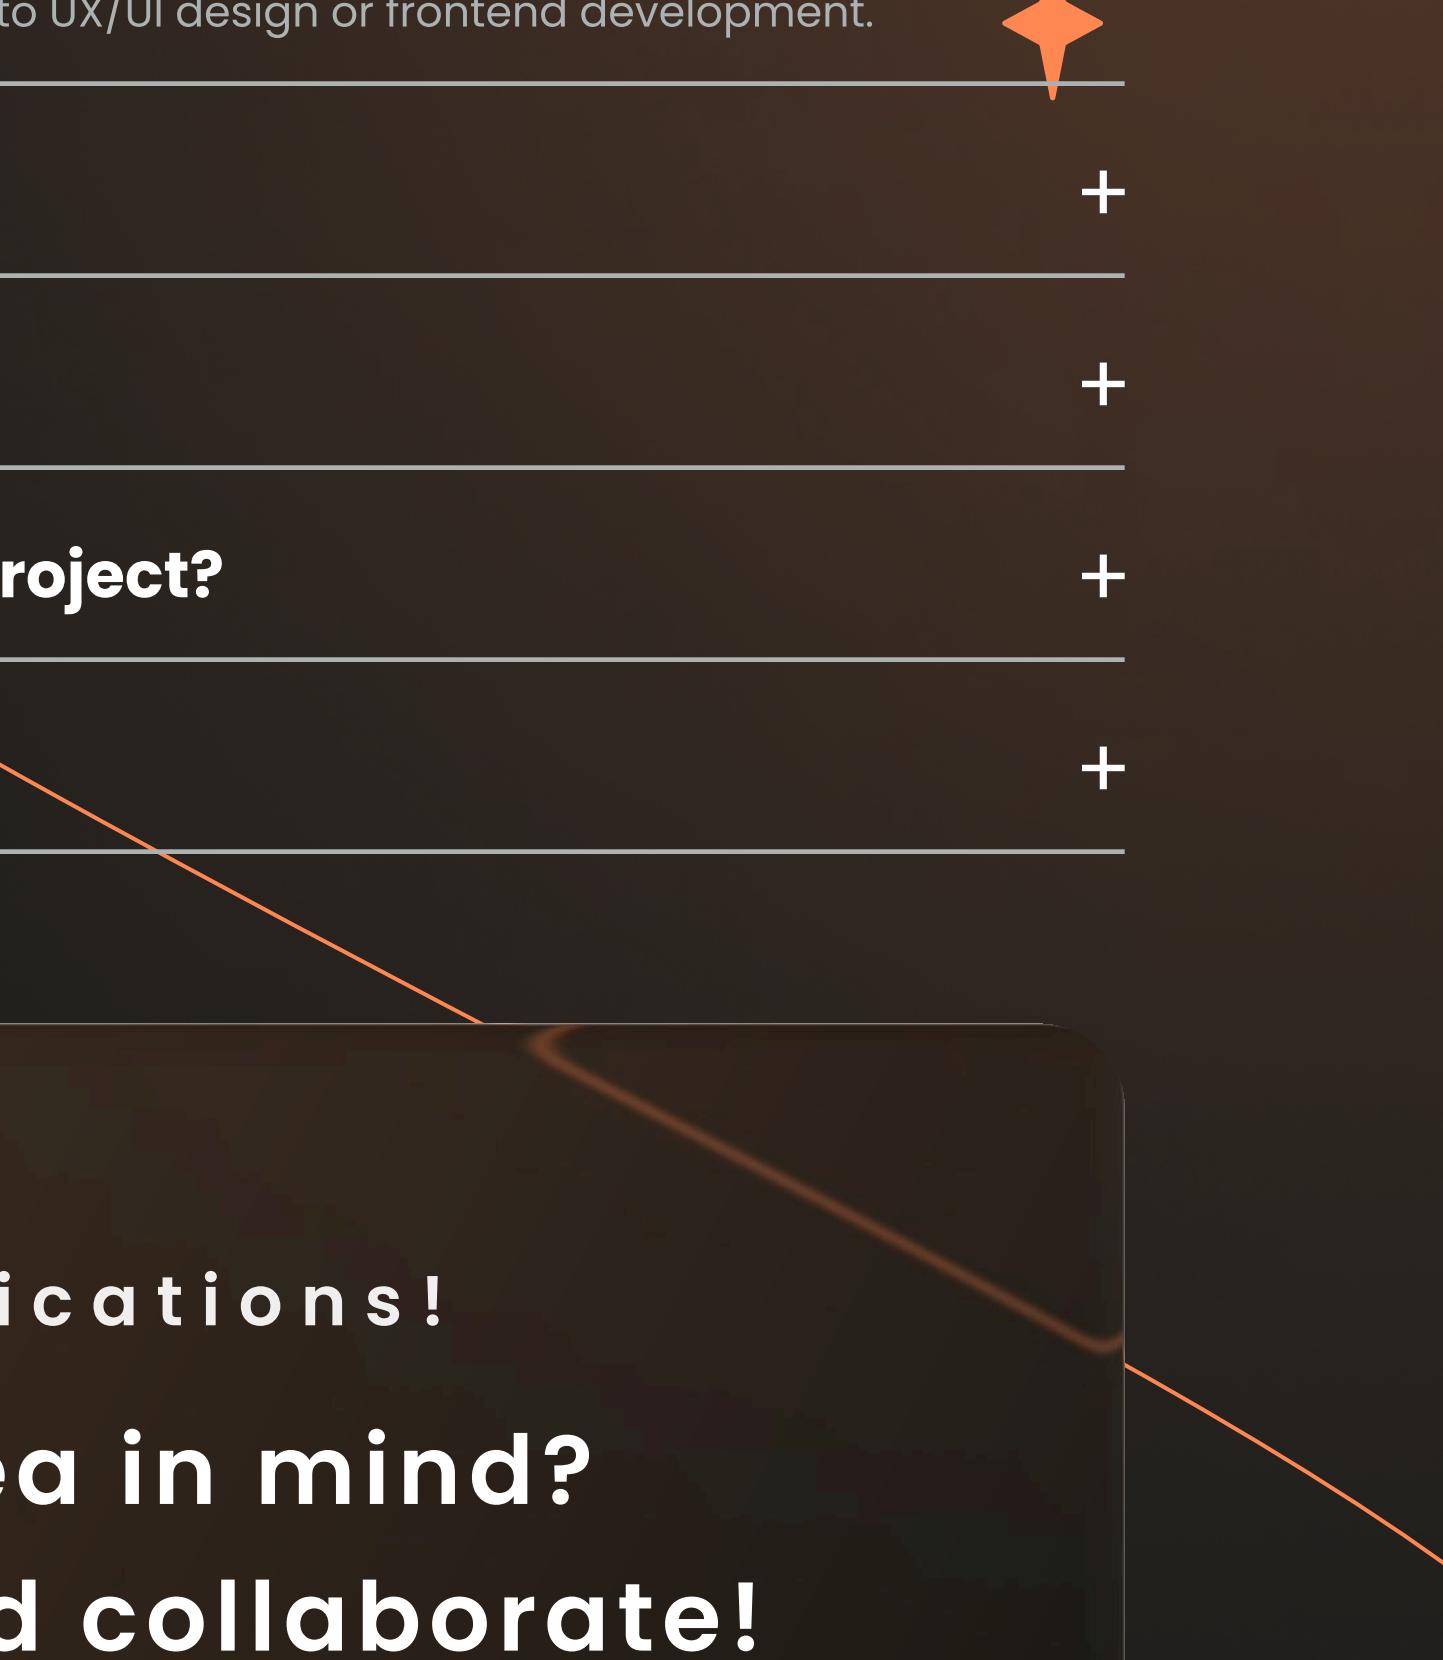

Understanding users' needs and behaviors

Interviews & Analysis

Competitive analysis, and informal interviews

Mood Board: Synthesize inspiration

Clearly define the design problem & set a strong direction

II >> Ideate Strategy

Paper frame: hand sketch on paper to visualize UI structure.
From paper frame to wireframe for visualization on Design tools

III >> Prototype

Upgrade to high-fidelity prototype (hi-fi). Then add animation & interaction

Join me new applications!

Got a project or idea in mind?

I'd love to connect and collaborate!
